GAMMA SIGMA DELTA

NEBRASKA CHAPTER

May 2009
Issue #37

President's Message

Our Nebraska Chapter of Gamma Sigma Delta has a long history of fulfilling its mission by encouraging high standards of scholarship and proficiency in all branches of agricultural sciences, natural resources, and family and consumer sciences. Success is clearly evident at both the chapter and international level.

Our Chapter has a rich history of high achievement; sustainability of that record is dependent upon initiation of a number of new members each year as well as upon continued active involvement of members in Chapter activities. Therefore, Executive Committee members propose to serve our chapter by:

- Increased undergraduate student recruitment activities - facilitated by revising the Chapter Calendar of Activities and scheduling the Initiation and Awards Banquet to occur during Spring Semester. This later date will allow more time during the academic year for student recruitment activities.
- Implementation of additional awards, such as a new Graduate Student Scholarship Award. Implementation of the award currently hinges on identification of sustained sources of funding.

We look forward to another great year as we work together to maintain traditional Chapter activities and explore new routes to enhance our program. Thank you for your continued efforts and for sharing your insights regarding the best course of action to pursue to serve our Chapter.

Dr. Massengale is the Director of the Center for Grassland Studies, Foundation Professor, and President Emeritus. He has served agriculture and the nation in a distinguished career spanning six decades.

In her remarks, Gamma Sigma Delta International President Susan Campbell shared quotes from Dr. Massengale's award nomination. "...His major accomplishments, especially in later years, have been brought about by keen insight, vision, and experience in agriculture...." "At a time when most people have retired, he continues to be 100% active and uses his knowledge to provide highly valuable leadership to a wide variety of groups at the university and national levels." "His opinions continue to be sought by those in all aspects of the agricultural industry." "Much like a certain brand of watch, he just keeps on ticking." Another nominator emphasized his ability to build consensus and cut through barriers.
